

TOPFLUENT Języki Obce Tłumaczenia Nauka offers translation and localization services for companies and individuals. Based in Warsaw, the agency focuses on Polish, Italian and French language.

### Our essentials:

Out of our long experience not only in the translation business, but also in the fields of language learning, language teaching and linguistic mediation, we know how hard global communication can be.

We put great personal effort in:

- offering a clear solution to the customer
- respecting deadlines
- delivering an outstanding support at reasonable prices
- being strict and accurate in the work, but highly reactive and flexible when needed

### Our services:

Translating

Interpreting

Linguistic Mediation

Online Courses

We all know that languages have to be practised and concepts have to be transformed into words.

“Translating” or “interpreting” means much more than knowing all single words in a foreign language, as you have to be familiar with different cultural backgrounds and ways of thinking.

### Our languages:

(on request)

### Get in touch with TOPFLUENT !

- you can write or talk to us every time you wish
- you can save money, because you will be talking to the translator directly
- you can instantly get a competent advice on the work to be done

### Another big advantage:

we use CAT software for all large and repeated terms and expressions: this means lower costs of the translation work and the certainty that any words used regularly remain consistent throughout your document.

### Learn or improve your languages online:

Contact a language teacher online and ask her/him for more information!
